SUM OF ALL NODES IN BINARY TREE

```
int addBT(Node* tree)
{
    if(root == NULL)
    {
     return 0;
    }
    return(root->key +
              +addBT(root->left) +
              +addBT(root->right));
}
```
